

Marine Notice No. 21 of 2024

*Notice to all Shipowners, Fishing Vessel Owners, Agents, Shipmasters, Skippers, Fishers,
Yachtsmen and Seafarers*

Greenlink Interconnector Offshore Cable Burial Works Co. Wexford

1. Notice of Activity

The Department of Transport has been advised that Greenlink Interconnector Ltd is proposing to develop an electricity interconnector to allow for power cable installation and power cable protection activities. After the cable is laid offshore by the cable lay vessel “**Connector**”, cable burial and trenching activities will be performed along the planned interconnector route. These activities will be undertaken between **13 April 2024** and **20 June 2024**, subject to weather and operational constraints.

2. Location of Activity

The operations will take place along the planned interconnector route between the landfall location near Baginbun Beach, Co. Wexford, and the middle of the Irish Sea. The coordinates of the planned route are available in Appendix 1 to this Marine Notice. A map of the proposed route with indicator points is available in Appendix 2, while a map of the nearshore focus area is available in Appendix 3.

3. Details of Survey Vessel

The operations will be performed by the trenching support vessel “**Symphony**” (call sign: **LXTT**). This vessel will have a trenching vehicle deployed or a remotely operated vehicle for survey activities deployed over the side. As the vessel will be restricted in its ability to maneuver, all vessels operating within this area are requested to keep a wide berth and pass at minimum speed to reduce vessel wash. The vessel will be listening to VHF channel 16 and can set any other channel as required.
